We have a combination of Pitt's 4-horse power Emery Cotton Gin and Condenser, and Grove Press, which will effect the ginning of a crop without a gin-house. Cotton can be ginned in the field as readily as grain can be trashed, and the complement of machinery we

have arrranged, will effect this. This we have gotton up because of the widespread destruction of Gin Houses, and the naessity of a portable set of Ginning and Pressing Mchinery. Steam Power, 4 to 8-horse, can be substi-
